DETAILED ACTION

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1,5,9,10,15, 18,19, 20 & 21 are rejected under 35 U.S.C. 102(b) as being anticipated by Elkins (US Patent No. 6,178,562 B1). Elkins discloses a temperature control apparatus for actively cooling a human and comprising: a vest garment (16) connected via a cord (17) to a temperature control device (18) consisting of a controlled low temperature to part of a human body between (45-50 degrees (F)), intermeshing configuration and an impermeable fabric material consisting of layers (31 & 32) made of nylon.

Allowable Subject Matter

Claims 2-4,6-8,11-14,16 & 17 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
